### Thank you

Finally thank you to all our beautiful clients who attended our skin care workshop, hopefully you all now know the dangers of **UVA/UVB** rays including the difference between the 2 and have all been using a good SPF since. Don't forget that it is important to know the difference between **SPF 10 / 20 / 30 / 40 / 50** etc. its not necessarily to do with the level of protection but how long it lasts on the skin.
